

Respiratory Protection (NSTC and OSHA Offered)

Provider: Beacon OHSS

Website

http://beaconohss.com/servlet/content/nstc_respiratory_protection.html

The OSHA course includes identification of conditions requiring respiratory protection, selection and utilization of air-purifying respirators, self-contained and supplied-air respirators and the care and maintenance of such equipment. The NSTC course serves as an introduction to the use of the three types of respiratory protection used on the North Slope.
